

2nd Edition

ENERGY

EXPO & FORUM 2018

ENERGY

EXPO & FORUM, TIRANA - ALBANIA
5 - 6 OCTOBER 2018

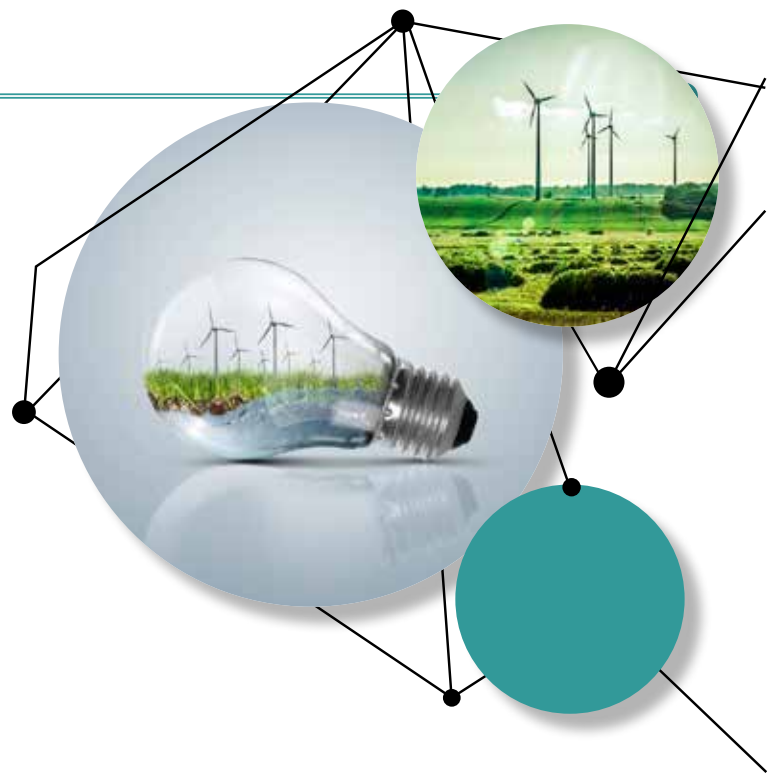

ENERGY IN A SINGLE MARKET - **RENEWABLE ENERGY** - ENVIRONMENTAL PROTECTION - **SUSTAINABLE SITE** - THE ENERGY FUTURE IN THE REGION

Energy Expo & Forum 2018 comes as a second edition to the initial launch of Energy Expo & Forum 2017. This edition will focus on the high potential in Albania, Kosovo, Montenegro, Macedonia, Greece, Croatia and Serbia to invest in electricity.

With great unused potential, Albania benefits from huge investment opportunities in this area, which also pertains to current electricity market policies. The new Renewable Energy Law adopted last year and the regulated legal framework will create new prospects for investments and cooperation.

The event will take place on October 5-6, 2018 at Expocity Albania. The novelty of this exhibition and forum will include the entire region and beyond, as well as on the topic to be tackled including environmental issues and respect for climate change, construction technology issues in respect of energy efficiency.

This forum will gather collectors and producers of the renewable energy sector, becoming the main B2B platform for investors, developers and consultants. Participants will be advised across the spectrum of the energy sector regarding opportunities, the tendering process and the challenges, with a particular focus on the renewable energy sector and the future of energy in Albania and the region.

THE PURPOSE OF ENERGY EXPO & FORUM 2018:

The New Law on Renewable Energy Nr. 7/2017 "On Promoting the Use of Renewable Energy from Energy", which entered into force in February 2017, sets out the legal framework for the promotion of renewable energy production.

This law includes the installation of solar panels for households and businesses. The exhibition will focus on energy efficiency, renewable energy sources, construction and environmental protection in order to:

- *Encourage businesses and cooperation of all relevant stakeholders in the field of energy, green energy, environmental protection, construction and local development in Albania and in the region.*
- *Introduce potential investors to new opportunities/projects, thus to stimulate growth of investments in the energy sector, such as: industrial parks, photovoltaic parks, wind farms, construction of wastewater treatment plants.*
- *Present new advanced technologies and special financial products for the energy sector.*
- *Contribute to greater use of renewable energy sources and energy efficiency measures.*
- *Contribute to the development and constructions of sustainable and ecological buildings.*
- *Encourage implementation of public-private partnerships in Albania and the region.*

PARTICIPANTS

Producer of energy

- Solar
- Wind
- Hydro
- Geothermal
- Gas

Power Transmission

- Transformers
- Power lines
- Gears for power distribution

Lighting technology solutions

- Solar
- Led tech
- Combined solutions

Technology Related to Hydropower

- Turbine
- Tubular systems

Energy saving technologies

Banks

- Commercial banks
- EBRD
- BSTDB
- WB-IFC

Public utilities

- DSO
- AEC
- OST
- ERE, ect

Major Energy Projects

- New concessions
- Smart and ecological projects

Forum

- Participation in the conference is complemented with an organized exhibition visit
- Sponsors of the exhibition will have the right to present a case study, or a topic during the forum;

THE MAIN TOPICS THAT WILL BE ADDRESSED DURING THE FORUM WILL FOCUS ON:

- * Green Energy
- * Energy Efficiency
- * PPP
- * Water Management
- * Efficient Buildings
- * Climate change

FORUM

PARTICIPANTS:

- Representatives of Albanian government
- Investors
- Energy market actors
- Manufacturers
- Albanian design companies for feasibility studies and impact on the environment.
- Representatives of the Municipality of Tirana
- City and region planning executives
- CEOs, Directors, MDs, GMs, CFOs of the infrastructure and energy companies
- Energy and Infrastructure Advisers
- Law Offices operating in the field of energy and infrastructure
- Economists in the field of energy and many others.

*Why participate:
The forum's goal is to provide B2B meetings and discussions between actors of the energy sector across the region, to encourage investments and increase competition. Both days will include meetings and workshops, with industry's specialists, potential investors and other actors.*

Expocity Albania is an international exhibition and conference center. The company organizes and conducts various trade fairs, exhibitions, guest events, and special events in local and international markets. In addition, Expocity's expertise and infrastructure are used for other congress, seminar and conference events. The exhibition centre – with its 5000 m² of indoor exhibition space, 7000 m² of outdoor space, and 800 parking spots – is the largest facility of its kind in Tirana. It is close to the centre of the capital and nearby international airport and has an excellent strategic location in the region, close to international transport networks between East and West. Expocity Albania offers those taking part in trade fairs and conferences the best possible platform for successful communication in the region.

We bring together supply and demand and enable dialogue, while giving businesses an opportunity to promote themselves in the region.
