CLIMATE DIPLOMACY WEEK

in SERBIA

During Climate Diplomacy Week, EU Delegations and embassies of several EU Member States around the world hold various events to foster dialogue and cooperation on climate change, showcase success stories and inspire further action.

Events organised during the week will include conferences, citizens' debates, exhibitions, film screenings and other outreach activities bringing together a wide range of stakeholders and communities.

A key theme this year will be the Talanoa Dialogue – a facilitative process to take stock of the collective and individual efforts towards the goals of the Paris Agreement on climate change. Running throughout 2018, the Talanoa Dialogue is a key moment focus on the solutions and potential associated with the low-carbon transformation.

PROGRAMME

24/09

Municipality of Priboj, RES foundation, Regional Development Agency of Zlatibor and Belgrade Open School: activities and concrete plans of the Municipality to achieve 40% GHG emission reduction target by 2030.

EUIC Belgrade @11.00 **Forum "Women and men in response to climate change"** by Women's Architectural Society ŽAD and UN Women Serbia: support the development of gender sensitive criteria in environmental programs and policies.

24-25/09

Eco-Dev activities in the Primary school "Dragan Lukić", Belgrade and the Fifth Belgrade Gymnasium.

26/09

@11.00

European Bank for Reconstruction and Development: Launch of the Green Economy Financing Facility (GEFF) in Serbia – a Facility that provides finance for green economy investments in the residential sector.

26/09

@11.30

Climate Change conference "Why should we adapt to climate change? Why is adaptation to climate change important for Serbia?" EU-funded Climate Change Strategy project. EUIC Belgrade

27/09

@9.00

UN-CSO consultations on the UNFCCC reporting processes: Discussing Climate Change issues in Serbia and forging climate-smart partnerships. Venue: UN House, ground floor, big conference room, Zoran Djindjic Blvd. 64, New Belgrade

28/09

@11.00

Clean Energy package for the Republic of Serbia and the local communities, by Secretariat for energy and mining of the province of Vojvodina, RES Foundation and Pokret Gorana Vojvodine (founders of Mreža dobre energije). Guests: representatives of the Secretariat of the Energy Community from Vienna. Building of the Government of Vojvodina Novi Sad.

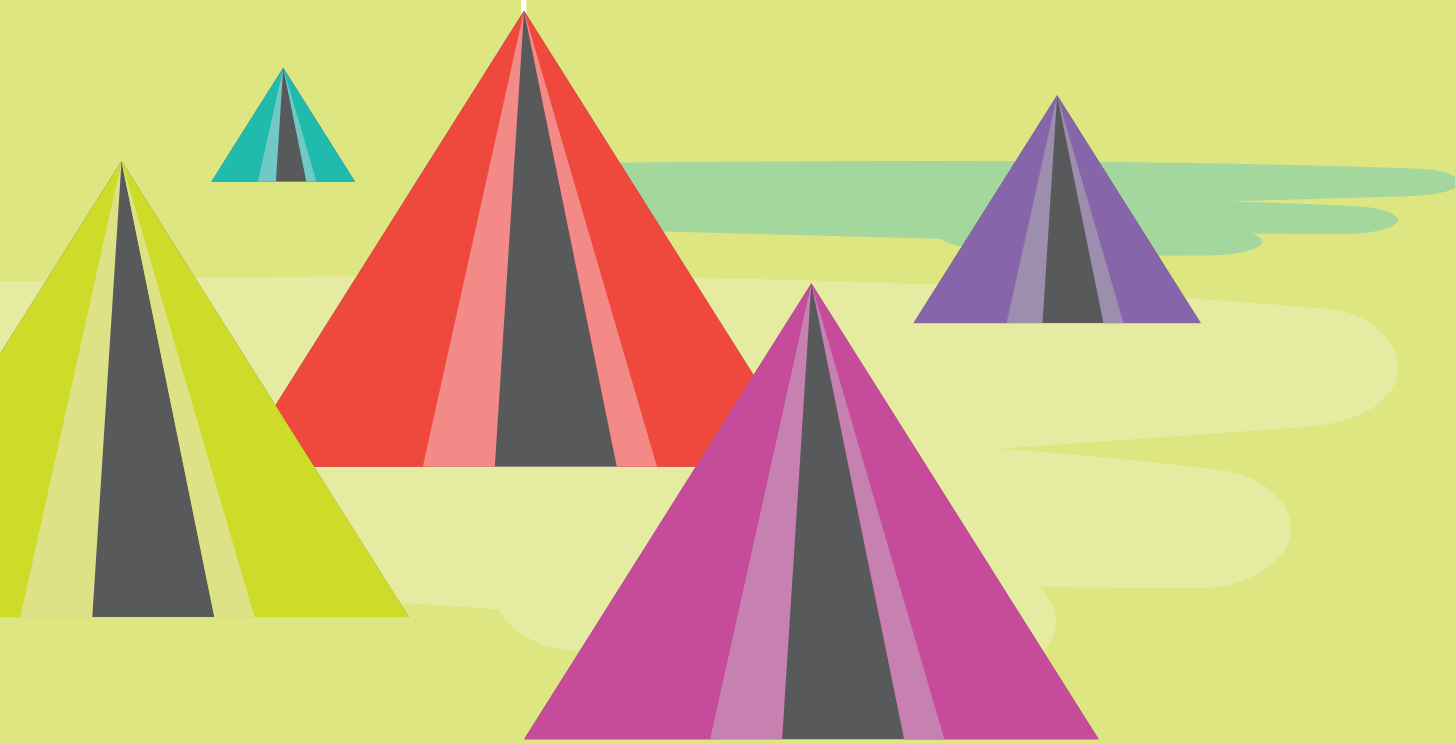

29/09

Climate Village at ADA Lake: departure/arrival of **Climate Bike Ride**, announcements, group photo, activities in all tents, Biodiversity guided tours of ADA, etc. The Climate Village at ADA Lake will present several initiatives promoting Climate Action.

Climate Village at ADA Lake

29/09

- 10:30 Start taking your bike at bike rental place. Bikes will be rented in advance and available for participants, against one valid ID card.
- 11:00 **Sport Week announcement** – main stage near Sport fields at ADA.
- 11:15 **The Climate Bike Ride** will start at the Arch(entrance of Sports week and Climate Village. The Bike ride will go around ADA.
- 12:00 **Arrival at Climate Village:** refreshments, visit of village, announcements, group photo.
- 12:30 **Climate Village Tents Activities**
Outdoors activities, such as guided tours on Biodiversity (12:30 and 13:00 Adaptation, Mitigation, Disaster Risk Reduction tent).
Eco-Dev: Climate wall: what can you do about Climate Change?
- 19:00 **Premiere of the film "Guardians of the earth" with Mr Filip Malinowski, Film Director, followed by a Debate**
- 20:30 Closure

A Climate Village at ADA Lake will present several initiatives promoting Climate Action.

Climate Smart Tents

UN, PKS-Climate KIC

Incubator/Accelerator under the Climate Smart Urban Development Challenge Project and Climate-KIC Project

Workshops for kids (age 4 -11) provided by Greentertainment Hub: “Recycle music” and “Eco Heroes Coloring Books”.

RES TENTS

CLIMATE ACTION REQUIRES GOOD ENERGY

Cooling the planet with the heat pumps. Presenting the technology of Daikin company

Go solar! What can you do on your own? Pokret Gorana Vojvodine explains solar energy usage for each and every one.

Learning for climate action. Professors and students of the technical school “Mihajlo Pupin” from Kula tell us how it feels to become technician for renewable energy sources and how will the school be turned into the lab for climate action.

Magicians of energy efficiency. Nikola Vujović and Željko Zečević of the RES Foundation from the Secretariat of Mreža dobre energije from Vrbas tell the fairy tale story of the energy management.

Adaptation, Mitigation, Disaster Risk Reduction tent

GIZ, UN, EU/ADA

Disaster preparedness is highly beneficial for communities located in disaster-prone areas. Preparedness to hazards, such as extreme weather and flooding, can help reduce the impact of such catastrophes on lives, livelihoods and communities.

Better know-how, practice and response mechanisms, such as early warning systems and other disaster preparedness activities can save lives and speed up the recovery of communities.

Caravane du climat

Ambassade de France

The climate caravan is an itinerant project from the French Embassy, with the support of Institut français Paris and SUEZ. It aims to strengthen Serbian citizens' awareness of climate change, convince economic stakeholders that green growth is a development opportunity and promote simple solutions that everyone can set up at their own level. An abstract will be presented, with a part of the exhibition "Garbage Life" and videos of several specialists presenting solutions to tackle climate change effects in various fields.

PASCH

**secondary school “Uroš Predić” from Pančevo
/ Goethe-Institut**

PASCH-secondary school “Uroš Predić” from Pančevo presents diverse photo and video material as well as information about environment and climate-related school projects. In addition, the students will organize a charity sale of upcycled gifts and entertain the audience with a prize winning quiz, together with their partner organization MNRO (National organization of persons with disabilities of Serbia).

PASCH stands for the global network “Schools: Partners for the Future” and is an initiative of the German Federal Foreign Office in cooperation with several implementing partner institutions.
