

Belgrade, November 19, 2018.

Dear Sirs,

Wuppertal Institute, RWTH Aachen, Delft University of Technology, Western Balkans Consulting Global (WBCG) and Serbian Chamber of Commerce have a pleasure to invite you to a Conference **Circular Serbia - Benefits from cooperation between EU recycling sector and Serbian industry** that shall take place in the premises of the Serbian Chamber of Commerce – CC Belgrade, Conference hall on the 6th floor, 12 Kneza Milosa st, on **December 13, 2018, at 10:00 AM**.

Conference is the final event of the whole project that has been supported by EU funds through European Institute for Innovations and Technologies (EIT Raw Materials) aiming at promoting benefits of deep digitalization in recycling industry, at increased competitiveness, growth and attractiveness of this sector that is to be achieved through radical changes in business models, new educational formats and guided entrepreneurship, which shall enable Serbian companies to become accountable partners with European industries in areas of waste management and recycling and renewable energy use, as well as to get acquainted with good practice examples.

Conference shall deal with Circular Economy issues and its potentials in Serbia, with results of the study visit of Serbian representatives to German and Holland institutions, installations and companies and with practice examples and new, emerging technologies in this field. Event shall gather representatives of local industries, academia, companies, administration, International Organizations and CSOs. Conference shall be also attended by representatives of the Government of Serbia and Diplomatic Missions and will be extensively covered by media presence.

Please confirm your attendance to: office@wb-consulting.com

Sincerely,

PRESIDENT OF THE SERBIAN CHAMBRE OF COMMERCE

CHAIRMAN WBCG

Marko Cadez

Dusan Vasiljevic
