

Launch of The Prince of Wales's Corporate Leaders Group report: '*The energy transition in Central and Eastern Europe: The business case for higher ambition*'

Thursday 21st March, 14.00-16.00 EET, Bucharest, Romania.

This event will bring together representatives of business, civil society and government to reflect on the business opportunities associated with the energy transition in the Central and Eastern European (CEE) region.

A panel of speakers will discuss the business opportunities and barriers to the energy transition in CEE countries, as well as financial and regulatory instruments needed to facilitate change and improve opportunities for greater business engagement.

A Question and Answer session will follow.
