

CEE Bankwatch Network z. s.

CEE Bankwatch Network is today the largest network of grassroots, environmental groups in countries of Central and Eastern Europe and a leading force in preventing dubious public investments in the field of energy, climate and environment. Operating with local communities and other NGOs since 1995, Bankwatch works to expose the influence of public banks and investment instruments (e.g. the EIB, EU Budget or the EBRD) to provide a counterbalance to their unchecked power. In Brussels, Bankwatch works primarily on the Multiannual Financial Framework as well as on the Cohesion and Regional Policy. A member of the Green 10, the ten most influential NGOs in terms of climate and environment, it takes part in a number of civil society alliances at EU level.

Senior EU Policy Officer - CEE Bankwatch Network z. s.

The Senior EU Policy Officer will work on Next Generation EU and MFF funding and on the overall policy framework for Bankwatch at the Brussels level, representing and implementing objectives identified at the national-level to ensure a sustainable transformation in the CEE economies in line with the EU Green Deal Objectives. He will also be responsible for the overall functioning of the Brussels office and will coordinate the various aspects of the EU-related work in Bankwatch.

Key elements of the profile

- Advocacy targeting EU level decision-makers in Bankwatch campaigns related to RRFs and EU Funds programming
- Communication with media at the Brussels-level
- Analysis of EU funding and financing policy in CEE countries
- Building understanding of national energy-transformation agenda and its impacts on climate and energy objectives of the EU (in the relevant countries)
- Being in continuous contact with national-level and able to follow actors and trends
- Bringing together different perspectives and synthesizing them into a single message
- Advising at the national-level on campaign entry-points (decision-makers and relevant EU policies) on RRF, EU funds, and EIB relevant to their campaign objectives
- Coordination of the assessment of the National Recovery and Resilience Plans and EU funds programming documents for the coherence with the EU 2030 climate and energy objectives
- Facilitate networking and coalition building on Bankwatch campaign objectives at the Brussels level
- Provide input in the preparation of the Reports and fundraising proposals relevant to the area of work

Key skills and knowledge

- Experience with EU policy processes and advocacy strategies
- Good understanding of EU climate and energy policies
- Interest in EU budget and public funding issues
- Coalition-building, strong team player
- Strong communication skills
- Knowledge or interest with CEE countries
- Ability to synthesize information
- Ability to build knowledge in new areas and topics
- minimum 4 years experience in a similar area (energy transition aspects such as energy efficiency and RES legislative framework and investments)
