

# Service Technician

**Employer: Nordex Acciona Windpower**

Location: Crepaja

Valid until: 26.06.2024.

Jaka Lounge is seeking a Service Technician for our client, Nordex Acciona Windpower, one of the world's largest wind turbine manufacturers.

Nordex Acciona Windpower is one of the world's largest wind turbine manufacturers. Driven by the vision of a more sustainable world, with technology powered by nature, the company offers development, manufacturing, project management and servicing of onshore wind turbines. Nordex Acciona Windpower has a fantastic opportunity for a Service Technician to join their team based at the Krivača wind farm. This is a great opportunity for candidates who are interested in working in an exciting and constantly developing industry.

## **Responsibilities:**

- Develop and implement an annual maintenance plan for wind farm operations per manufacturer recommendations, ensuring operational functionality for electricity generation and transfer.
- Ensure documentation is current, recommendations are implemented, and operating instructions are updated.
- Manage and control insulation and protective equipment, materials, and spare parts.
- Maneuver the wind farm with windmill manager approval, adhering to HSE protection measures.
- Communicate with the dispatcher to maximize safe electricity production and transmission.
- Arrange regular and preventive inspections by authorized entities per regulations.
- Apply established work methods and techniques promptly, reporting irregularities to the manager.
- Collect, record, and process operational data and observations.
- Maintain daily drive and operating reports.

- Inspect facilities according to regulations.
- Monitor occupational safety and fire protection equipment.
- Control plant access and movement in hazard zones.
- Oversee third-party work in the plant.
- Participate in company projects and initiatives.
- Monitor and adapt to changes and regulations affecting their work.
- Ensure the quality, accuracy, precision, and transparency of their work.

## **Requirements:**

- Mid-level electrical and/or mechanical education.
- Minimum 3 years of work experience in hydraulic, electrical, or mechanical fields.
- PC and MS Office literate, capable of generating reports and official communication.
- “B” category Serbian driving license.
- Able to work independently in shifts and flexible for site work and changing working conditions.
- Capable of working at heights and in the proximity of medium and high-voltage infrastructure.
- Good planning skills.
- Proactive, confident, and team-oriented.
- Ability to manage a heavy workload and multiple demands.
- Excellent listening and communication skills.
- Availability, good interpersonal skills, flexibility, and mobility.
- Proficiency in English and Serbian is essential; knowledge of German, Portuguese, or Spanish would be appreciated.

If you are looking for an exciting position and fit the criteria, apply for this position. We are looking forward to meeting you! <https://career5.successfactors.eu/careers?company=nordexse>
