

**MACS Energy & Water** is an international consulting company active in the field of sustainable infrastructure development and finance. In our focus we have the changing realities in the energy and water supply sectors and challenges which these changes bring along. Our business model is based on the holistic thinking, which is needed to get sustainable energy and water projects off the ground. Our regional experience primarily covers Central and Southeast Europe, Latin America, Central Asia, Middle East, North & Sub-Saharan Africa, as well as the EU countries. We currently have the following job opening:

### **Junior Technical Expert – Green Energy & Climate Advisory**

**(Belgrade office)**

We are looking for a Junior Technical Expert to join our team and support our work with financial institutions on green energy and climate-related projects. This role is ideal for someone with an engineering background and a strong interest or experience in energy efficiency (EE), renewable energy (RE), or climate technologies.

You will work alongside experienced consultants to provide technical input, support project assessments, and help financial institutions make smart, sustainable investment decisions.

#### **What You Will Do:**

- Conduct technical research and analysis on green energy systems and climate technologies
- Help manage projects by tracking progress, communicating with clients on technical matters, and preparing reports
- Assist with energy audits for energy efficiency projects
- Support technical due diligence for renewable energy projects (solar, wind, etc.)
- Contribute to technical advisory work that enables climate-friendly financing

#### **What You Need:**

- A university degree in engineering (electrical, mechanical, technology, or mining)
- Knowledge or strong interest in energy efficiency, renewable energy, or climate solutions
- Excellent English skills, both spoken and written; knowledge of German, French, or Spanish is a plus
- A team-oriented mindset and willingness to travel occasionally

#### **What We Offer:**

- A flexible, international work environment
- The opportunity to work on real-world green finance projects
- Support for your learning and professional development in sustainable technologies

In case you are interested please send a presentation letter and your resume in English and other relevant references to [jobs@macsonline.rs](mailto:jobs@macsonline.rs) latest **by May 11<sup>th</sup> 2025**.
